NJAWI MEETING NOTICE

President: John Gehman
Vice President: George Reitz
Treasurer: John Autovino
Secretary: Mikhail Tsinadze

Introducing Proliner

With the Proliner® you will have a modern, digital solution that helps you optimize efficiency and production and very important: reduce costs! You can create your .DXF drawing in only seconds. The digital drawing connects directly to any CNC-machine or plotter and your production runs in only a couple of minutes!

Implementation of Digital Measuring & Templating System into Engineering and Production

Most woodworkers spend far too much time making templates the traditional way. This takes a lot of time and materials to produce. Most of the time these are not 100% accurate and can't be used anymore. These templates can also easily get lost or damaged. The Proliner creates digital templates or can deliver the right dimensions as the basis for your design.

Speaker: Mikhail Tsinadze

September 16, 2010

5:00 – 6:00pm Board Meeting
6:00 – 6:30pm Social Gathering
6:30 – 7:00pm Dinner
7:00 - 8:30pm Presentation

Email to: webmaster@njawi.org
or fax to: (973) 794-2656

Rolf's Restaurant
65 Stirling Road
Warren, NJ 07059
(908) 754-5500

Cost: \$ 30 **RSVP by 09/10/2010**

Name: _____ Company name _____

Phone Number _____ Email _____

Number of People Attending _____
